

IMPORTANT NOTICE

AN-PN-TS SYSTEM

As you are aware, the current Manifest system will be deactivated once the new AN,PN & TS system is implemented.

We are currently planning the training programme for economic operators and for this purpose we would like to have information on whether your organization will be using the AN,PN&TS system.

If you will be using the system kindly confirm whether you intend to access the system through:

- Customs user interface (manual data in putting);
- B2G system to system interface

This information will help us to plan the necessary training sessions and create usernames for testing purposes.

If we are not informed by Friday 18th October whether you will be using the system or not, we shall assume that you are not interested in using AN,PN&TS system for the time being.

If you have any questions or require further information, kindly contact the TSMU office on tsmu.mtca@gov.mt
